With the transition from the Army of Excellence logistics structure to the single logistics command and control of the modular force logistics concept, the traditional command relationship between logistics organizations and the maneuver forces that they support have changed. With all logistics organizations above the Brigade Support Battalions being assigned to the Theater Support Command or Expeditionary Support Command, sustainment brigades may be assigned elements of multiple divisions to support, resulting in conflicting support priorities. Combined with the characteristics of the contemporary operational environment, this change in command relationships dictates a new approach to planning for logistics support for maneuver campaigns. TRADOC Pamphlet 525-5-500 describes campaign a campaign planning methodology intended for use by a Joint Task Force headquarters or higher. This monograph adapts those concepts and incorporates elements of Joint and Army planning processes, to apply to a sustainment brigade operating on an area support basis for a division size element. Through a process of commanders appreciation, campaign design, and finally campaign planning, logistics commanders can develop effective campaign plans that provide the optimum level of support...
