## Political Economy and Global Affairs

By Andrew Sobel

CQ Press. Paperback. Book Condition: New. Paperback. 453 pages. Dimensions: 9.1in. x 7.4in. x 1.2in. Policy decisions at the domestic level--whether relating to currency rates, tariffs on certain goods, or labor protection--factor heavily on such issues as trade, monetary policy, foreign debt, and development. How can we best understand the way those decisions and events at the national level affect outcomes and policy at the international level? A focus on one over the other paints an incomplete picture for students. Sobel contends that we must focus on the individual preferences, strategies, and choices of political-economic policymakers in order to fully understand the larger, macro view of international political economy. With the aim of linking the two, Sobel helps students develop analytic skills for describing both what happens in the international political economy, and why policymakers make the choices they do. In this groundbreaking new text, Sobel presents--in a lucid and intuitive way--the core assumptions of scarcity, political survival, and rationality which form the basis of the book's micro-level approach. Individuals--not nations--make choices. With constraints as to what resources and opportunities are available, policymakers choose among alternatives that are most in sync with their self-interest. If students understand market failure and social...
