# Elements of Hydrographic Surveying

By George Wood Logan

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 edition. Excerpt: . for fixing the next station; and so the triangulation may be continued from one point to another along the coast. This same principle may also be employed upon a smaller scale, substituting a boat for the ship. 125. A diagram of triangulation illustrating the arrangement of main and secondary stations in a hydrographic survey is given in Plate I. A study of this will give a clear idea of the objects to be sought in choice of stations; particular attention should be paid to the system of quadrilaterals upon which the main line of the triangulation is extended; the advantages of the quadrilateral over the simple triangle as a basis of computation will be explained later (art. 218). CHAPTER.VI. TOPOGRAPHY. 126. The topographical work of a survey comprises the delineation of all requisite features of the land, including the shore-lines of mainland and...
