Dimensions: 9.7in. x 7.4in. x 0.1in.To better provide Congress with information needed to conduct oversight and make decisions on programs and funding, we recommend that the Secretary of the Army provide guidance on the level and type of detail needed to each office within the Army responsible for providing information to officials compiling the annual report on the Armys progress in meeting modular force requirements. Such guidance should at a minimum ensure that future reports provide comparisons with information from prior years to identify trends and therefore the extent of progress made in fulfilling modular force requirements; identify specific lessons learned and link them to key modifications made to modular forces; identify key doctrinal changes made and their significance to the modular forces; use a consistent definition of key enabler equipment and personnel, consistent with the statutory definition, throughout the report; and include both active and reserve component information throughout the report.
